

# Cephalopod Activities

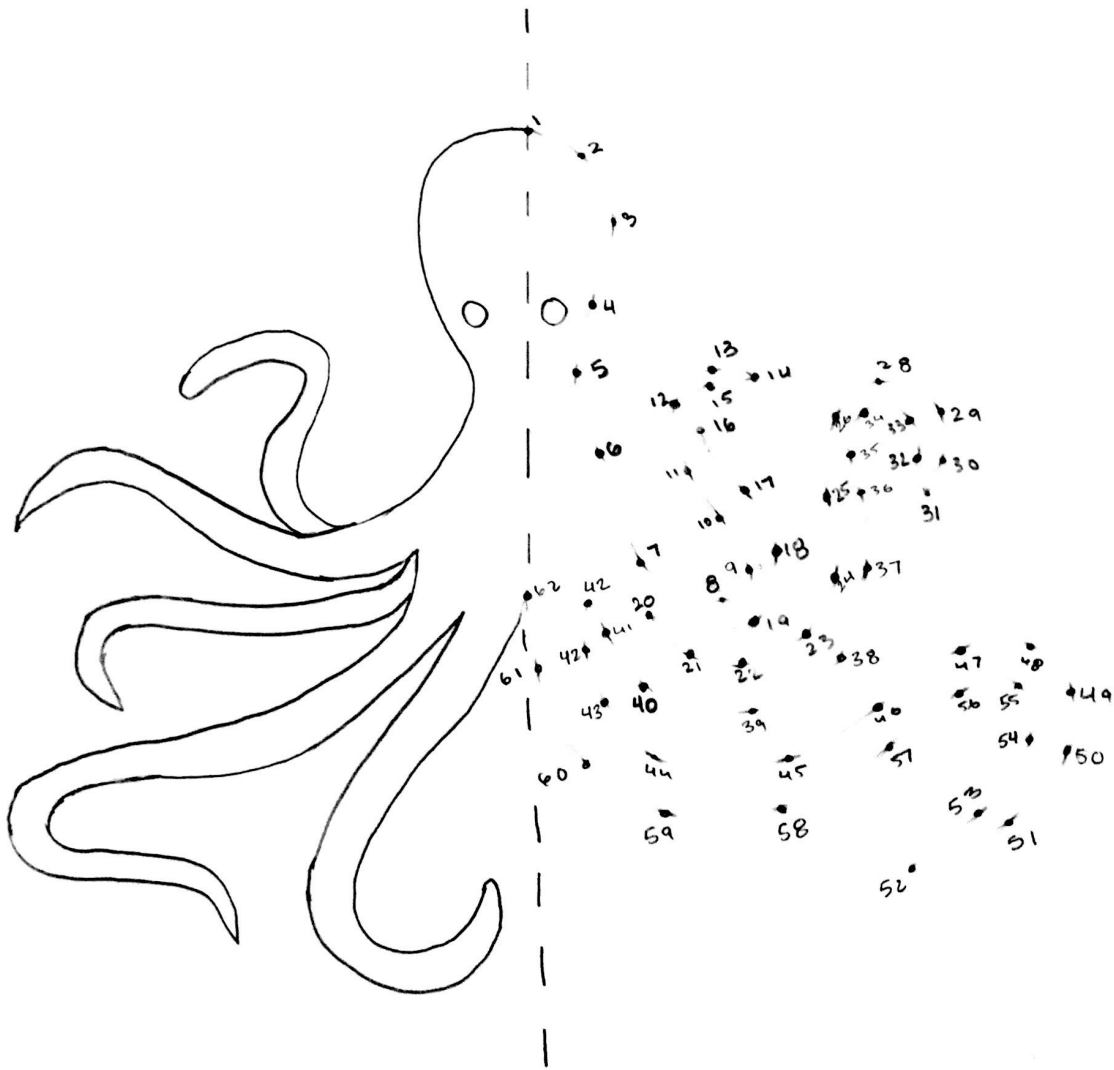

Learn more about these aquatic mollusks that include clams and squids like Squidward!

## FIVE SLIMY FACTS ABOUT CEPHALOPODS

- 1 There are 800 known species of cephalopods.
- 2 All cephalopods have a set of tentacles and a large head.
- 3 Some cephalopods can shoot out ink out of a tube called the siphon.
- 4 Their ink is made out of melanin (what gives our skin color) and mucus (or snot)!
- 5 Some cephalopods shoot out ink that is bioluminescent, which means it glows in the dark.
